Subject: Packaging and Packaging Waste Regulation (EU) 2025/40 Compliance Statement

Dear Customer,

Thank you for your enquiry regarding the compliance of packaging supplied by Avery Dennison Medical Limited with Regulation (EU) 2025/40 on Packaging and Packaging Waste ("PPWR").

The new PPWR regulation will generally apply from 12th August 2026. Avery Dennison Medical LTD based on supplier declarations, technical documentation and information currently available, confirms we are currently in compliance with the regulation in relation to the products listed below:

Customer Code	Product Description	Status
995102	MedProtect Barrier Film Spray 28ml	Compliant
995103	MedProtect Barrier Film Swab 1ml	Compliant
995101	MedProtect Barrier Cream 28g	Compliant
900831	Hydrosorb 8g	Compliant
900832	Hydrosorb 15g	Compliant

Article 5 Requirements (Restrictions on Substances):

- **Heavy Metals:** Confirms compliance with the concentration limits for lead, cadmium, mercury, and hexavalent chromium.
- **Substances of Concern:** Confirms compliance regarding the minimized presence of substances of concern in our packaging materials.

General Manufacturer Obligations & Additional Standards:

- **Traceability:** Packaging bears the necessary elements to allow for precise identification and traceability through the supply chain, as mandated by the regulation.
- **PFAS (Company Standard):** While the specific PFAS prohibitions under PPWR apply strictly to food-contact packaging, Avery Dennison Medical confirms as an internal standard that no PFAS is intentionally added to these materials.

The required **EU Declaration of Conformity (DoC)** and supporting technical documentation are retained by Avery Dennison Medical and can be made available upon reasonable request.

This statement reflects our current understanding of Regulation (EU) 2025/40 at the date of issue and is based upon information supplied by our suppliers.

Signed on behalf of Avery Dennison Medical Limited by.
