

# MoliCare® Fixpants long leg, fixation pants

## General Product Description/Intended Purpose

### Intended Purpose:

MoliCare® Fixpants long leg are non-invasive, non-sterile fixation systems for safe and hygienic securing of all types of incontinence pads for long term contact with the body used by lay persons and/or health care professionals for humans on intact skin.

MoliCare® Fixpants long leg are light, soft and permeable to air, made of an extra-strong material with especially tight structure, full run resist.

These unisex fixation pants are reusable and can be used with MoliCare® Premium Form, MoliCare® Form and other types of incontinence pads as well as pads for women in childbed and are suitable for both immobile/ bedridden and mobile/active patients/residents (women and men).

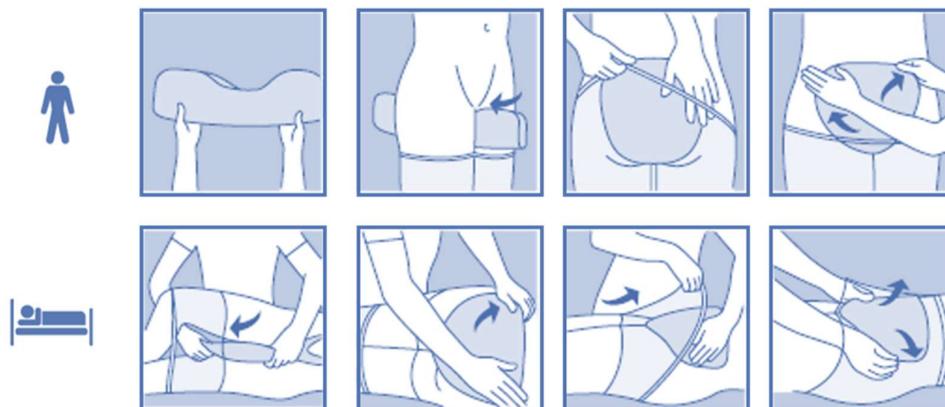

Thanks to their high stretchability, the change and the correct positioning of the pad is facilitated. The size identification is given by the woven-in colour coding system.

The products are suitable for usage of bladder weakness and urinary/faecal incontinence with several severities.

MoliCare® Fixpants long leg can be used in a home care environment and professional healthcare facilities.

## Application/Indication

Several severities of urinary and faecal incontinence

## Reusable Device

The product can be washed up to 25 times according to the washing instructions on the bag. Not following the washing instructions might have an impact on the elastic fibre elasticity and product fit/ fixation performance. Information available on request.

## Product disposal

To minimize the risk of potential infection hazards, or environmental pollution, disposable components of MoliCare® Fixpants long leg should follow disposal procedures according to applicable and local laws, rules, regulations and infection prevention standards.

## Incident Reporting

For a patient/user/third party in the European Union and in countries with identical regulatory regime (Regulation 2017/745/EU on Medical Devices); if, during the use of this device or as a result of its use, a serious incident has occurred, please report it to the manufacturer and/or its authorised representative and to your national authority.
