5. Classification/Safety Aspects

In the Federal Republic of Germany MoliCare Skin Hand Cream is classified as cosmetic product. The product is in compliance with the latest amendments of the European Directive on Cosmetics (EEC Council Directive 76 / 768 with Technical Adaptations and Amendments). The product contains only ingredients which are permitted resp. which are not prohibited for cosmetic use according to the EEC Directive on Cosmetics.

The skin tolerance was dermatologically tested on predamaged (scarified) skin of human subjects with the result "very good" as well as on persons with atopic dermatitis in eczema free intervall with the result "Well compatible with all test persons. In no case there were any undesirable reactions".

MoliCare Skin Hand Cream was tested in a nursing home on residents and nurses under supervision of a medical specialist. The application of the product resulted in an impressive improvement of the skin condition. Furthermore the very good skin tolerance could be attested.

In a skin care study with measurement of skin moisture and skin surface lipid content the excellent care properties were demonstrated.
