

MoliCare Skin Barrier Cream

Spec.-No.: **D 9.0163**

Department: COH-IDI

Date: 14 Sept 2017

1. General Product Description

Barrier cream without zinc oxide forms a transparent protective film on the skin. Innovative formula enriched with creatine, bisabolol, essential fatty acids, amino acids and almond oil. Bisabolol regenerates and cares for irritated skin. Water-in-oil-in-water emulsion. PH-skin-neutral.

2. Application / Indication

Protects the skin from irritations, especially in intimate area.
Protects irritated skin areas from harmful substances and cares for the skin stressed by incontinence. Apply very thinly. Use on intact skin.

3. Presentations

In tubes of 200 ml.

5. Classification / Safety Aspects

In the Federal Republic of Germany MoliCare Skin Barrier Cream is classified as cosmetic product. The product is in compliance with the latest amendments of the European Directive on Cosmetics (EEC Council Directive 76/768 with Technical Adaptations and Amendments).

The product contains only ingredients which are permitted resp. which are not prohibited for cosmetic use according to the EEC Directive on Cosmetics.

The skin tolerance was dermatologically tested on predamaged (scarified) skin of human subjects with the result „very good“.

MoliCare Skin Barrier Cream was tested in a nursing home on persons suffering from incontinence under supervision of a medical specialist. The application of the product resulted in an improvement of the skin condition. Furthermore the very good skin tolerance and the protection effect of MoliCare Skin Barrier Cream against harmful substances of faeces and urine could be attested.
