

## Pütter-haft®

Spec.-No.: **D 2.6741a**

Department: **E-KOB**

Date: 2013-12-11

### 1. General Product Description

**Pütter-haft®** is a cohesive, short-stretch cotton crepe bandage with textile elasticity of approx. 60%; cohesive effect on both sides of the bandage for perfect fit; high working pressure with light resting pressure; may also be worn when the patient is in a resting position, permeable to air; may be sterilized (steam A 134°C); radiotransparent; skin-coloured.

**Pütter-haft®** carries the CE mark according to EU directive 93/42/EEC for medical devices. The product is classified as a class I medical device.

A conformity assessment has been performed for **Pütter-haft®** and it has been shown to be in compliance with all applicable requirements of the above mentioned directive.

The safe use of **Pütter-haft®**, therefore, is ensured if the product is used in line with the intended purpose.

### 2. Application / Indication

For extra high compression; in chronic venous obstructive oedema, healed leg ulcers, thrombophlebitis, for follow-up treatment of venous disorders and in knee phleboarthrosis; as a support and relief bandage in musculo-skeletal injuries; as a sports bandage.
