

Maternity pads

General Product Description/Intended Purpose

Maternity pads are unsterile medical device for single-use, used by mothers after natural childbirth in the clinical environment for short-term dressing. Maternity pads has a very good breathability which reduces infection risk.

Application/Indication

Maternity pad is used directly for a few days after baby born. Pad is inserted into the fixation pants into crotch area. Pad absorbs postpartum haemorrhage (blood) and minimize risk of inflammation due to breathability.
