

# Medicomp® non sterile

## General Product Description/Intended Purpose

The products are non-active devices. The swabs are made of a mixture of viscose and polyester fibres, free of binding agents and optical brighteners, soft and permeable to air, available in four plies. The swabs can be unfolded to get bigger sizes. The devices are non sterile. The products are packed in paper-bags.

Single-use, non-sterile swabs are used by lay persons and healthcare professionals on intact and injured skin to absorb body fluids (e.g. exudate or blood) or to clean the skin. They are used on injured skin as a primary or as a secondary wound dressing in combination with ointments and compression material such as bandages. A new device can be applied indefinitely.

## Indication

- as a primary dressing for injured skin
- as initial wound cleansing and cleansing of intact and injured skin
- as carrier material of externals e.g. disinfection, ointments
- as secondary dressing for acute wounds and chronic wounds
- for padding of wounds
- for absorption of body fluids
- as a mechanical barrier

## Reference Numbers

## Residual Risks, Contra-Indications and Undesirable Side Effects, Warnings

Do not use for surgical intervention.

# Medicomp® non sterile

## Single Use Device

Reusing a single-use medical device is dangerous. Reprocessing devices, in order to reuse them, may seriously damage their integrity and their performance. Information available on request.

## Product Disposal

To minimize the risk of potential infection hazards, or environmental pollution, disposable components of Medicomp® non sterile should follow disposal procedures according to applicable and local laws, rules, regulations and infection prevention standards.

## Incident Reporting

For a patient/user/third party in the European Union and in countries with identical regulatory regime (Regulation 2017/745/EU on Medical Devices); if, during the use of this device or as a result of its use, a serious incident has occurred, please report it to the manufacturer and/or its authorised representative and to your national authority.

## Product Performance Characteristics

Medicomp® nonsterile	
property	value
Area weight	approx. 30 g/m <sup>2</sup> or 40 g/m <sup>2</sup>
Water absorption capacity	approx. 11 g/g for 30 g/m <sup>2</sup> nonwoven approx. 10 g/g for 40 g/m <sup>2</sup> nonwoven
Optical brighteners	none
Chemical binders	none

## Material Characteristics

Nonwoven
Mixture of viscose and polyester, the part of viscose is between 67 and 70% the remaining part is made of polyester fibres

## Labelling

Lot-No. with 9-digit code

e.g.:

	9	999	01	00	1
explanation	[9 = 2019]	[999-000]
